

Risk assessment matrix:

Risk	Chance	Effect	Solution
We cannot find a router image for GNS3	High	Project cannot start	Ask teacher, classmates, or use another supported router image
GNS3 installation problems	Medium	Delay in project work	Install and test GNS3 before starting the project
Backup path does not work during failure	Medium	Failover requirement will fail	Test by shutting down the primary link and checking connectivity
Wrong IP addresses are configured	Medium	Devices cannot communicate	Double-check the IP addressing plan
Files are accidentally deleted	Low	Loss of project work	Save files on GitHub and keep backups
